

## TREFOIL TRAILS - OUR AREA CAMP

Saskatoon Area has a well-established camp at Pike Lake Provincial Park. Many local units make use of this wonderful facility - day use and overnight - both in winter and also during the spring/early summer camping seasons. It is available to all units in Saskatoon.

### Twice a year we have a clean-up weekend at camp:

**October** - to prepare the camp for winter use

**April** - to ready for the spring/summer camping season

There is general clean-up to be done inside buildings as well as outdoor work maintaining trails/grounds, repairing buildings and so on. Assistance of adult volunteers is needed: Many Hands Make Light Work!

If you might be willing to help (October, April or both), please complete the info requested below and turn in the cut-off portion with your registration, or to your unit Guider. You will be contacted with details of the clean-up well in advance so that we can confirm your participation but we request an indication now of your potential interest.

We thank you for your consideration - without the assistance of volunteers (beyond our pool of Guiders who already give generously of their time to work for the girls) we will be unable to maintain our camp.
